

## Interaction Discovery Workshop

Participant Information Number:

For publication of our results, we need to describe who the participants were, so that other researchers can judge whether it might affect our findings, and so that they know whether their own work might replicate our study or find something different.

### We are interested in how you would describe yourself to other people in the profession

1. How would you describe your role within your organisation?  
(as you would describe it in conversation, it does not have to be your formal job title)

2. How would you describe your level of experience in that kind of role?  
(we are looking for the words you would use, **not** how long you have been doing it)

3. How would you describe the size of your organisation?  
(we are looking for the words you would use, **not** how many people work in it)

4. Have you been involved in a similar activity before?

Never

Once

Occasionally

Regularly
